

Guess who's coming to your yard for dinner?

A coyote comfortable in your yard is comfortable in your neighbour's yard and around their pets and children.

Please help keep your neighbourhood free of coyote attractants.

To discourage coyotes from dining in your backyard:

- *Keep garbage bins and composts secure.*
- *Store and feed pet food inside.*
- *Remove fallen fruit from the lawn.*
- *Maintain lawns, sheds and garages.*
- *Monitor your property for rodent activity.*
